**YOUR DATA - OUR EXPERTISE**

To whom it may concern:

RE: CRN-JHB40824

**Drive Details:**

Manufacturer: Western Digital  
Serial No: WCAV31724994  
Model No: WD1600AAJS

**Engineers Report:**

The Western Digital 160GB/3.5" Hard Disk Drive was booked in at Johannesburg offices for Data-Recovery on the 23<sup>rd</sup> January 2017.  
Our Data Recovery Engineer, whom undertook to evaluate and diagnose fault analysis on this device.

After performed Fault Analysis of the (Western Digital 160GB/3.5" Hard Disk Drive) , and low level sector by Data Recovery on the mentioned drive we didn't find any residues of previous data on the drive and the whole capacity of the drive is Zero/0 filled, which indicated a form that data wiping was performed on the drive.

Manufacturer: Western Digital  
Serial No: WCAV31724994  
Model No: WD1600AAJS

**Final analysis:**

We Lastly performed a low level Data reconstruction that in most case find lost/deleted User data, but in this case the below results was found:

**“Data Destruction and Sanitization process, performed by Xperien using (Cleaning Hard Disks DoD 5220.22-M standard) Secure Erase Method is approved”**

Should you have any questions please call me at any time to clear up any further questions.
